

Supply all artwork files in vectorized PDF file format. Printing is always in CMYK colors. The printing is done using a white adhesive vinyl decal with a transparent polyurethane doming on top. It's not possible to print on the slanted edge of this name badge product.

Very important: Crown name badge with clear doming is essentially a doming sticker. The base color is always white underneath the printing, metal finish is not visible through the design. Metal color is visible on the slanted edge of a badge.
